

Daman Ganga's latest innovation.

Another highly environmentally friendly **100% recycled** product made from post consumer mixed plastics waste.

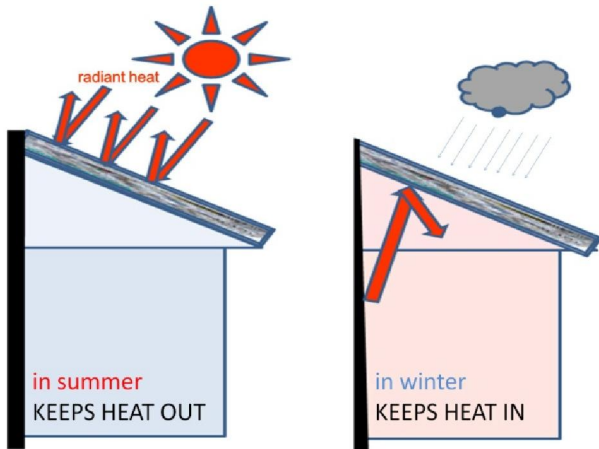

A product par excellence...

Applications:

- *roofs*
- *insulation*
- *water proofing*
- *wall claddings*
- *interiors & exterior applications*
- *construction applications*
- *flush doors*
- *cement casting*
- *partitions & furniture*
- *industrial machinery packaging*
- *crates & shipping pallets*
- *and many more...*

Properties:

- *anti-fungal*
- *high Strength*
- *good Insulation property*
- *termite and insect resistant*
- *dimensionally stable*
- *water proof*
- *weather proof*
- *highly environmentally friendly*
- *very high strength*
- *low weight*
- *cost effective*
